

Pebble Creek Irrigators Project (Caribou CD)

Program	District Technical Assistance (ISWCC)
Lead Implementer	Caribou Conservation District
Other Organizations	Idaho Department of Environmental Quality, South East Idaho Fly Fishers, Trout Unlimited, U.S. Forest Service
Project Primary Contact	Pauline Bassett (pauline.bassett@id.nacdn.net)
Project Stage	Post-Implementation
Duration	2016 - 2018

Conservation Support ➤ District Technical Assistance (ISWCC)

Pebble Creek is a critical spawning stream for Yellowstone Cutthroat Trout. The project converted an irrigation ditch to pipe, eliminating the unstable ditch. This will eliminate hundreds of tons of sediment sloughing off into Pebble Creek. Nine diversion points were consolidated into one, including a new fish screen.

Key Accomplishments

- Diversion (number): 1
- Engineering Designs Produced: 2
- Fish Stream Improvement (number): 4
- Irrig. Water Convey. Pipeline - H Press.Und. Plast (linear feet): 1,600.00 lf
- Engineering & Technical Assistance Hours Requested: 97
- Engineering & Technical Assistance Hours Allocated: 37
- Engineering & Technical Assistance Hours Provided: 159
- Engineering & Technical Assistance Value: \$11,222.67

Project Themes

- Water

Location

Expenditures

No expenditures provided

No additional photos provided

Tracker tells stories at a broad-brush level. Individual project performance measures and expenditures should not be relied upon for complete and total accuracy and should be confirmed with a project's lead implementer. Project locations subject to confidentiality provisions under state and federal law specify the location of a local conservation district or USDA service center office.
